

## Eight Early Reader Books with Phonetic Words and Child-Friendly Plots

Step into reading with Miss Rhonda's Readers. Every book is phonetic so children can sound out the words. And every book is a story that captures a child's imagination, interest, and humor. Miss Rhonda has been teaching children to read for over 15 years, now her books are available to everyone!

## *What people are saying...*

"Thank you for making the readers. I have started using them in my classroom and they are amazing. The children really love them, especially the twist each story has at the end. It has really bolstered their emerging reading skills. Please let me know when you make set two. Thank you again for making them."

— Karen B., Teacher

"Our books arrived yesterday and he's reading them today!!!! I cannot tell you how much we are already enjoying your books. My 5-year old son Jude has been resistant to reading. I decided to give your books I try when I saw them featured on CoolMomPicks.com, liking the idea of stories that make sense. I thumbed through them when they were delivered to me at work and I was laughing out loud at my desk to 'Pink Pig' and 'Sniff, Sniff'. I brought them out at bed time and decided to read one page and have Jude read the next. It didn't take long for him to pick up the words (relating some of the ones he wasn't sure of to the story line) and he was reading!"

— Lisa B., Mom
